

An investigational medication is being evaluated for the treatment of spasticity in adults and is looking for volunteers.

If you meet study criteria, you may be eligible to participate in a research study of an investigational medication at Idaho Physical Medicine & Rehabilitation. For more information, contact Carolyn Blasch directly at 208-287-6556 or cblasch@idahopmr.com.

CLINICAL RESEARCH TRIALS ON SPASTICITY

Are you 18-80 with spasticity in one of your arms/legs due to cerebral palsy, traumatic brain injury or a stroke?

Do you have limited range of motion of your upper or lower limb, muscle tightness or involuntary jerks or movements?

Has it been at least a year since your last seizure or are you seizure free?

Are you able to walk with or without an assistive device?

161 E. Mallard Dr., STE 120, Boise, ID, 83706
